### THE WONDERS OF TANZANIA

#### **October 15**      **THE MARA / LAKE MANYARA**

*After breakfast and a last look at the Mara, we fly to Wilson Airport in Nairobi and connect to Mount Kilimanjaro Airport in Tanzania. If conditions permit, you may get a glimpse of majestic Mt. Kilimanjaro. Here you will meet your Tanzania safari team who will assist in your transfer to the Lake Manyara Serena Hotel in the beautiful countryside of Tanzania. The remainder of the afternoon is at leisure at your safari lodge. The area is home to over 350 species of birds that populate the mahogany forest, marsh, grass, and scrub land of Lake Manyara. Lake Manyara is well known as a haven for families of frolicking baboons.*

#### **October 16**      **LAKE MANYARA / NGORONGORO CRATER**

*You continue by road today to the Ngorongoro Crater and our home for the next two nights, the NGORONGORO SERENA HOTEL. The hotel is situated on the rim of the crater from which you can see an awesome panorama...a collapsed volcano of 100 square miles containing prides of lions, rhino, hippo, hyena, and elephant, as well as thousands of antelope. A truly unique location!*

#### **October 17**      **NGORONGORO CRATER**

*Today you descend to the crater floor for the day. You carry box lunches which have been prepared by the hotel staff. The crater's short grass prairies are an ideal haven for many species. Inside this natural enclosure, you will find many different types of terrain from prairie to savannah to marshland. Your return to the rim this afternoon in time to relax by the fire either prior to or after dinner.*

#### **October 18**      **NGORONGORO CRATER / SERENGETI**

*You leave the crater area this morning bound for the world famous Serengeti. This vast area of Tanzania features the largest concentration of game in all of Africa. In fact, it is one of the last places on earth where vast numbers of animals still roam free. You have a full morning of travel ahead, but the journey has many rewards. First, you stop at Olduvai Gorge, the site made famous by Richard Leaky's discovery of early humans. You continue your drive into the Serengeti, with a stop at the park sign for photographs. This drive is always an excellent opportunity to spot game, so keep your eyes peeled for cheetahs or lions resting on the rocks during the day. Although we arrive at our camp for a somewhat later lunch, the journey should be well worth the trip. Your last two nights of safari will be spent at the Mbuzi Mawe Tented Camp which features lavish sleeping and bathing arrangements complemented by commanding views of the endless savannah. This afternoon our safari team will take you into the Serengeti for your first game drive in this massive park filled with both predators and prey.*
